ABIRD equipment is covered by a standard third-party insurance. As hirer you are obliged to insure the hired equipment against hull damage, fire, theft and the like in conformity with article 12.3. from our general rental conditions.

You may take out a supplementary insurance via ABIRD for three-phase current generators, welding generators and compressors – diesel-driven equipment. We charge an additional fee for this. Accessories and fittings cannot be included in this insurance. Rates are available on request.

For further information you may contact your ABIRD representative. If you so desire, we can make an offer for this "all-in" insurance immediately..

### Conditions for supplementary insurance
